232 Fifth Avenue, Corner 27th Street, New York

## I WILL GIVE \$1000

If I Fail to Cure Any Cancer or Tumor

I have had an automobile specially constructed for use with this material. My son, who is an engineer, made the necessary calculations for me and the vehicle works splendidly. It is an eighteen-horsepower conveyance, comfortably carrying four persons, and has been subject to all sorts of tests over long and short distances without going wrong in any important manner.

"Of course, we have had occasional trouble with the tires, but other minor accidents, easily set right, but the machinery has worked without a hitch."

Asked whether there were good reasons for transferring benzol to petrol, Colonel Suddler said at once that there were many. Benzol possesses twice the potential efficiency of petrol, or, in plainer English, it is twice as powerful. It is only about half the price. It has a higher flash point and is therefore safer than petrol. It gives off no disagreeable odor and it is abundant, while petrol is growing scarcer. Moreover, it is a native product, and from that point of view will especially recommend itself to the subjects of King Edward.

"What is benzol, Colonel?"

"It is a spirit which distills from coal when burned in coke ovens, and it is the principle of coal gas. It has to be refined before being used for mechanical or chemical purposes."

"Is it applicable to any motor?"

"No, it is not. It is a spirit which distills from coal when burned in coke ovens, and it is the principle of coal gas. It has to be refined before being used for mechanical or chemical purposes."

"What is benzol, Colonel?"

"It is a spirit which distills from coal when burned in coke ovens, and it is the principle of coal gas. It has to be refined before being used for mechanical or chemical purposes."

"Is it applicable to any motor?"

"No, it is not. It is a spirit which distills from coal when burned in coke ovens, and it is the principle of coal gas. It has to be refined before being used for mechanical or chemical purposes."

## PARADE OF BURNS COTTAGE ASSOCIATION AND BOER WAR SOLDIERS.

Parade of Burns Cottage Association and Boer War Soldiers.

TRIBUTES TO THE POET.

Music and Speeches in the Hall of Congresses at the Fair-Reception at Missouri Building.

From all indications Scotch Day at the World's Fair to-morrow will be one of the most enjoyable events in the history of the Exposition.

The members of the Burns Cottage Association, affiliated bodies, their guests and friends will meet at 10:30 o'clock in the morning at the Parade entrance and march to the Burns Cottage, starting at 11 o'clock.

In order to participate in the parade it will be necessary to obtain a Burns Cottage Association badge and small Scotch flag. They will be supplied to all who fall in line at the Parade entrance and will entitle the holder to entrance at the Boer War, Tyrol Alps and Missouri building.

Major W. A. R. Stewart, late of the Third King's Own Hussars, will be in command of the Stewart Society. The formation of the parade follows:

Standard Banners—British, American and Scottish.

Band of Pipers—British contingent, with company of Highlanders from Boer War Encampment.

Second Scottish officers and members Burns Cottage Association.

Third Section—Detachment of lancers and guests Burns Cottage Association, commanded by Captain Chapin, D. O. S. South African Light Horse, from Boer War Encampment.

Fourth Section—Exposition Band and affiliated Scotch societies.

Arriving at the Burns Cottage, the society members, their guests and friends, will witness at 11:45 o'clock, the ceremony of unfurling the Scottish flag by Miss Gertrude L. Dick. The flag is presented by Colonel Watson, British Commissioner to the Exposition.

The Highland Infantry will give the first official recognition of the flag with military salute.

ADDRESS OF WELCOME.

President Francis will then deliver the address of welcome on behalf of the World's Fair. On behalf of the Burns Cottage Association, President John W. Dick will speak.

At 12:30 o'clock, in the same order as in the parade from the gate, the march to the Hall of Congresses will begin.

The standard of the Burns Cottage Association will be carried by the Burns Cottage Association, followed by the Burns Cottage Association, followed by the Burns Cottage Association.

At 1:00 o'clock, Joseph A. Graham will act as chairman and deliver an address on the "Celebration of Scottish Day." Music by the Exposition Band will follow Mr. Graham's speech.

A solo, "Scotland, My Motherland," will be rendered by W. M. Porteous, after which Fred W. Lehmann will speak on "Burns the Poet." Mr. Lehmann has made a special study of Burns, and his address promises to be interesting.

The poem, "Robert Burns," by Willis Leonard Clapham, will be read by Maye McCallister. The poem follows:

O Bard of Freedom, on whose brow  
The sun of fame is shining now,  
Thou art the man who taught us  
How men who must to manhood bow  
For truth may fall.

O teacher of the soul of men,  
Thou art the man who taught us  
How men who must to manhood bow  
For truth may fall.

Thou art the man who taught us  
How men who must to manhood bow  
For truth may fall.

Thou art the man who taught us  
How men who must to manhood bow  
For truth may fall.

Thou art the man who taught us  
How men who must to manhood bow  
For truth may fall.

Thou art the man who taught us  
How men who must to manhood bow  
For truth may fall.

Thou art the man who taught us  
How men who must to manhood bow  
For truth may fall.

Thou art the man who taught us  
How men who must to manhood bow  
For truth may fall.

Thou art the man who taught us  
How men who must to manhood bow  
For truth may fall.

Thou art the man who taught us  
How men who must to manhood bow  
For truth may fall.

Thou art the man who taught us  
How men who must to manhood bow  
For truth may fall.

## Folding Stepladder Chairs 98c
